Independent Auditor's Report

To the Board of Education of Jesup Community School District:

I have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Jesup Community School District, Jesup, Iowa, as of and for the year ended June 30, 2006, which collectively comprise the District's basic financial statements listed in the table of contents. These financial statements are the responsibility of District officials. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe my audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Jesup Community School District at June 30, 2006, and the respective changes in financial position and cash flows, where applicable, for the year then ended in conformity with U.S. generally accepted accounting principles.

In accordance with Government Auditing Standards, I have also issued my report dated August 11, 2006 on my consideration of Jesup Community School District's internal control over financial reporting and my tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of my audit.

Management's Discussion and Analysis and budgetary comparison information on pages 4 through 11 and 33 through 34 are not required parts of the basic financial statements, but are supplementary information required by the Governmental Accounting Standards Board. I have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. I did not audit the information and express no opinion on it.

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Jesup Community School District's basic financial statements. I previously audited, in accordance with the standards referred to in the second paragraph of this report, the financial statements for the three years ended June 30, 2005 (which are not presented herein) and expressed unqualified opinions on those financial statements. Other supplementary information included in Schedules 1 through 4, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in my audit of the basic financial statements and, in my opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Keith Oltrogge

Certified Public Accountant

August 11, 2006

MANAGEMENT'S DISCUSSION AND ANALYSIS

Jesup Community School District provides this Management's Discussion and Analysis of its financial statements. This narrative overview and analysis of the financial activities is for the fiscal year ended June 30, 2006. We encourage readers to consider this information in conjunction with the District's financial statements, which follow.

2006 FINANCIAL HIGHLIGHTS

- General Fund revenues decreased from \$5,831,921 in fiscal 2005 to \$5,709,687 in fiscal 2006, and General Fund expenditures decreased from \$5,910,430 in fiscal 2005 to \$5,796,125 in fiscal 2006. The District's General Fund balance decreased from \$2,136,221 in fiscal year 2005 to \$2,049,783 in fiscal year 2006, a 4.1% decrease.
- The decrease in General Fund revenues was attributable to a decrease in federal revenue in fiscal year 2006.
- A decrease in the District's General Fund balance resulted in the District's solvency ratio decreasing from 36.1% in 2005 to 35.4% in fiscal 2006. The District's solvency level indicates the District is able to meet unforeseen financing requirements and presents a sound risk for the timely repayment of short-term debt obligations.

USING THIS ANNUAL REPORT

The annual report consists of a series of financial statements and other information, as follows:

Management's Discussion and Analysis introduces the basic financial statements and provides an analytical overview of the District's financial activities.

The Government-wide Financial Statements consist of a Statement of Net Assets and a Statement of Activities. These provide information about the activities of Jesup Community School District as a whole and present an overall view of the District's finances.

The Fund Financial Statements tell how governmental services were financed in the short term as well as what remains for future spending. Fund financial statements report Jesup Community School District's operations in more detail than the government-wide statements by providing information about the most significant funds. The remaining statements provide financial information about activities for which Jesup Community School District acts solely as an agent or custodian for the benefit of those outside of County government.

Notes to financial statements provide additional information essential to a full understanding of the data provided in the basic financial statements.

Required Supplementary Information further explains and supports the financial statements with a comparison of the District's budget for the year.

Other Supplementary Information provides detailed information about the non-major Special Revenue Funds.

Figure A-1 shows how the various parts of this annual report are arranged and relate to one another.

Figure A-1
Jesup Community School District Annual Financial Report

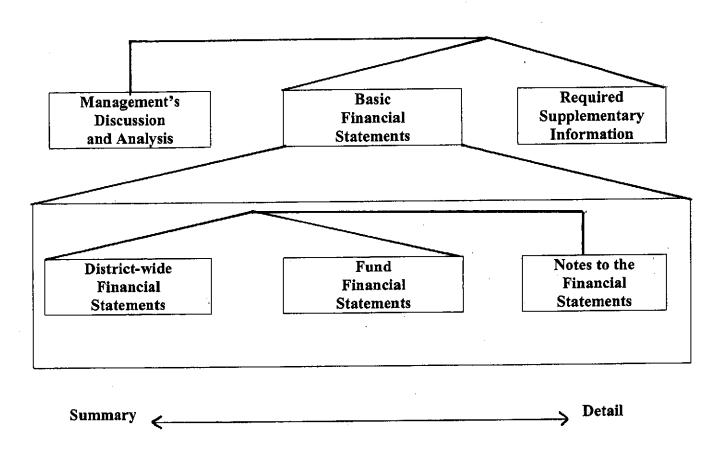

Figure A-2 summarizes the major features of the District's financial statements, including the portion of the District's activities they cover and the types of information they contain.

REPORTING THE DISTRICT'S FINANCIAL ACTIVITIES

Government-wide Financial Statements

The government-wide financial statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Assets includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the Statement of Activities, regardless of when cash is received or paid.

The two government-wide financial statements report the District's net assets and how they have changed. Net assets – the difference between the District's assets and liabilities – are one way to measure the District's financial health or financial position. Over time, increases or decreases in the District's net assets are an indicator of whether financial position is improving or deteriorating. To assess the District's overall health, additional non-financial factors, such as changes in the District's property tax base and the condition of school buildings and other facilities, need to be considered.

In the government-wide financial statements, the District's activities are divided into two categories:

- Governmental activities: Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property tax and state aid finance most of these activities.
- Business type activities: The District charges fees to help cover the costs of certain services it provides. The
 District's school nutrition program is included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

Some funds are required by state law and by bond covenants. The District establishes other funds to control and manage money for particular purposes, such as accounting for student activity funds, or to show that it is properly using certain revenues, such as federal grants.

The District has three kinds of funds:

1) Governmental funds: Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs.

The District's governmental funds include the General Fund, Special Revenue Funds, Debt Service Fund and Capital Projects Fund.

The required financial statements for governmental funds include a balance sheet and a statement of revenues, expenditures and changes in fund balances.

2) Proprietary funds: Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide financial statements. The District's Enterprise Funds, one type of proprietary fund, are the same as its business type activities, but provide more detail and additional information, such as cash flows. The District currently has three Enterprise Funds: the School Nutrition Fund, Swimming Pool Fund and Before and After School Fund.

The required financial statements for proprietary funds include a statement of revenues, expenses and changes in fund net assets and a statement of cash flows.

- 3) Fiduciary funds: The District is the trustee, or fiduciary, for assets that belong to others. This fund consists of a Trust Fund.
 - Trust Fund The District accounts for outside donations for scholarships for individual students in this fund.

The District is responsible for ensuring the assets reported in the fiduciary funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the government-wide financial statements because it cannot use these assets to finance its operations.

The required financial statements for fiduciary funds includes a statement of fiduciary net assets and a statement of changes in fiduciary net assets.

Reconciliation between the government-wide financial statements and the fund financial statements follow the fund financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Figure A-3 below provides a summary of the District's net assets at June 30, 2006 compared to June 30, 2005.

Figure A-3
andersed Statement of Net Assets

			Condensed	Statement o	f Net Assets			
	Govern	mental	Busines	Business Type		tal	Total	
	Activ	/ities	Activ	ities	Dist	trict	Change

Current and other assets	\$5,872,188	\$5,820,751	\$96,863	\$112,222	\$5,969,051	\$5,932,973	\$36,078	
Capital assets	7,461,190	7,381,232	27,817	30,388	7,489,007	7,411,620	77,387	
Total assets	\$13,333,378	\$13,201,983	\$124,680	\$142,610	\$13,458,058	\$13,344,593	\$113,465	
Long-term liabilities	\$4,616,235	\$4,655,000	\$ -	\$-	\$4,616,235	\$4,655,000	-\$38,765	
Other liabilities	2,732,425	2,458,649	14,114	9,219	2,746,539	2,467,868	278,671	
Total liabilities	\$7,348,660	\$7,113,649	\$14,114	\$9,219	\$7,362,774	\$7,122,868	\$239,906	
Net assets: Invested in capital assets,								
net of related debt	\$2,844,955	\$2,726,232	\$27,817	\$30,388	\$2,872,772	\$2,756,620	\$116,152	
Unrestricted	3,139,763	3,362,102	82,749	103,003	3,222,512	3,465,105	-242,593	
Total net assets	\$5,984,718	\$6,088,334	\$110,566	\$133,391	\$6,095,284	\$6,221,725	-\$126,441	

The District's combined net assets decreased by nearly 2%, or \$126,441, over the prior year. The largest portion of the District's net assets is in the "invested in capital assets (e.g., land, infrastructure, buildings and equipment), less the related debt". The debt related to the investment in capital assets is liquidated with sources other than capital assets.

Unrestricted net assets – the part of net assets that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation or other legal requirements – decreased by \$242,593, or 7%.

Figure A-4 shows the change in net assets for the year ended June 30, 2006.

Figure A-4

Change in net assets	-\$102,952	-\$22,825	-\$125,777			

Property tax and unrestricted state grants account for 65.5% of the total revenue. The District's expenses primarily relate to instruction and support services, which account for 82.7% of the total expenses.

Governmental Activities

Revenues for governmental activities were \$6,997,780 and expenses were \$7,100,732. In a difficult budget year, the District was able to balance the budget by trimming expenses to match available revenues.

The following table presents the total and net cost of the District's governmental activities: instruction, support services, non-instructional programs and other expenses.

Figure A-5
Total and Net Cost of Governmental

	Activities				
	Total Cost	Net Cost			
	of Services	of Services			
Instruction	\$4,424,165	\$3,187,320			
Support Services	1,744,491	1,680,850			
Non-instructional programs	-	-			
Other expenses	932,076	857,076			
Totals	\$7,100,732	\$5,725,246			

- The cost financed by users of the District's programs was \$746,182.
- Federal and state governments subsidized certain programs with grants and contributions totaling \$890,179.
- The net cost of governmental activities was financed with \$2,403,758 in property and other taxes and \$2,925,865 in unrestricted state grants.

Business Type Activities

Revenues for business type activities were \$337,760 and expenses were \$360,585. The District's business type activities include the Before & After School Fund, School Nutrition Fund and Swimming Pool Fund. Revenues of these activities were comprised of charges for service, federal and state reimbursements and investment income.

INDIVIDUAL FUND ANALYSIS

As previously noted, Jesup Community School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The financial performance of the District as a whole is reflected in its governmental funds, as well. As the District completed the year, its governmental funds reported a combined fund balance of \$5,984,718, below last year's ending fund balances of \$6,088,334.

BUDGETARY HIGHLIGHTS

Over the course of the year, the Jesup Community School District amended its annual budget once to reflect additional expenditures for the teacher quality fund and for reclassifying the Before & After School program to non-instructional programs.

The District's receipts were \$364,304 more than budgeted receipts, a variance of 5%. The most significant variance resulted from the District receiving more in property taxes and state aid than originally anticipated.

The Districts total expenditures were less than budgeted, due primarily to the District's budget for the General Fund. It is the District's practice to budget expenditures at the maximum authorized spending authority for the General Fund. The District then manages or controls General Fund spending through its line-item budget. As a result, the District's certified budget should always exceed actual expenditures for the year.

In spite of the District's budgetary practice, the certified budget was exceeded in the instruction functional area due to the timing of expenditures at year-end without sufficient time to amend the certified budget.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2006, the District had invested \$7,489,007, net of accumulated depreciation, in a broad range of capital assets, including land, buildings, athletic facilities, computers, audio-visual equipment and transportation equipment. (See Figure A-6) This represents a net increase of 1% from last year. More detailed information about the District's capital assets is presented in Note 4 to the financial statements. Depreciation expense for the year was \$378,562.

The original cost of the District's capital assets was \$11,974,297. Governmental funds account for \$11,912,584, with the remainder of \$61,713 accounted for in the Proprietary, School Nutrition Fund.

Long-Term Debt

At June 30, 2006, the District had \$4,616,235 in general obligation and other long-term debt outstanding. This represents a decrease of .8% from last year. (See Figure A-7) Additional information about the District's long-term debt is presented in Note 5 to the financial statements.

Reconciliation of the Balance Sheet – Governmental Funds To the Statement of Net Assets

Total fund balances of governmental funds (page 15)	\$ 3,167,701
Amounts reported for governmental activities in the Statement of Net Assets are different because:	
Capital assets used in governmental activities are not financial resources and, therefore, are not reported as assets in the governmental funds	7,461,190
Accrued interest payable on long-term liabilities is not due and payable in the current period and, therefore, is not reported as a liability in the governmental funds	-27,938
Long-term liabilities, including bonds payable and early retirement, are not due and payable in the current period and, therefore, are not reported in the funds	 -4,616,235
Net assets of governmental activities (page 12)	 5,984,718

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances – Governmental Funds To the Statement of Activities

Year Ended June 30, 2006

Amounts reported for governmental activities in the Statement of Activities are different because: Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, these costs are not reported in the Statement of Net Assets and are allocated over their estimated useful lives as depreciation	
funds as expenditures. However, these costs are not reported in the Statement of Net Assets and are allocated over their estimated useful lives as depreciation	
expense in the Statement of Activities. Capital outlay expenditures exceeded depreciation expense in the current year, as follows:	
Expenditures for capital assets Depreciation expense \$ 454,832 -374,211 80	621
Proceeds from issuing long-term liabilities provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Assets. Repayment of long-term liabilities is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Assets. Current year repayments exceeded issues, as follows:	
Issued \$ -146,234 Repaid 185,000 38	766
Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when due. In the Statement of Activities, interest expense is recognized as the interest accrues, regardless of when	,156
it is due. Change in Net Assets of Governmental Activities (page 14) \$\frac{102}{2}\$

Notes to Financial Statements

June 30, 2006

(1) Summary of Significant Accounting Policies

Jesup Community School District is a political subdivision of the State of Iowa and operates public schools for children in grades pre-kindergarten through twelve. Additionally, the District either operates or sponsors various adult education programs. These courses include remedial education as well as vocational and recreational courses. The geographic area served includes the City of Jesup, Iowa and portions of the predominately agricultural territories in Buchanan and Black Hawk Counties. The District is governed by a Board of Education whose members are elected on a non-partisan basis.

The District's financial statements are prepared in conformity with U. S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

A. Reporting Entity

For financial reporting purposes, Jesup Community School District has included all funds, organizations, agencies, boards, commissions and authorities. The District has also considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to or impose specific financial burdens on the District. Jesup Community School District has no component units which meet the Governmental Accounting Standards Board criteria.

<u>Jointly Governed Organization</u> – The District participates in a jointly governed organization that provides services to the District but does not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The District is a member of the County Assessor's Conference Board.

B. Basis of Presentation

<u>Government-wide Financial Statements</u> – The Statement of Net Assets and the Statement of Activities report information on all of the non-fiduciary activities of the District. For the most part, the effect of inter-fund activity has been removed from these statements. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business type activities, which rely to a significant extent on fees and charges for service.

The Statement of Net Assets presents the District's non-fiduciary assets and liabilities, with the difference reported as net assets. Net assets are reported in three categories:

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes and other debt attributable to the acquisition, construction or improvement of those assets.

Restricted net assets result when constraints placed on net asset use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net assets consist of net assets that do not meet the definition of the two preceding categories. Unrestricted net assets often have constraints on resources imposed by management, which can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those clearly identifiable with a specific function. Program revenues include (1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function and (2) grants, contributions and interest restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

<u>Fund Financial Statements</u> – Separate financial statements are provided for governmental, proprietary and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as non-major governmental funds.

The District reports the following major governmental funds:

The General Fund is the general operating fund of the District. All general tax revenues and other revenues that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenditures, including instructional, support and other costs.

The Capital Projects Fund is used to account for all resources used in the acquisition and construction of capital facilities.

The District reports the following major proprietary fund:

The District's proprietary funds are the Enterprise, School Nutrition Fund and Swimming Pool Fund. These funds are used to account for the food service and swimming pool operations of the District.

The District also reports fiduciary funds which focus on net assets and changes in net assets. The District's fiduciary funds include the following:

The Trust Fund is used to account for assets held by the District under trust agreements which require income earned to be used to benefit individuals through scholarship awards.

C. Measurement Focus and Basis of Accounting

The government-wide, proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after year-end.

Property tax, intergovernmental revenues (shared revenues, grants and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgments and compensated absences are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, and then general revenues.

The proprietary fund of the District applies all applicable GASB pronouncements, as well as the following pronouncements issued on or before November 30, 1989, unless these pronouncements conflict with or contradict GASB pronouncements: Financial Accounting Standards Board Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins of the Committee on Accounting Procedure.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's Enterprise Fund is charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The District maintains its financial records on the cash basis. The financial statements of the District are prepared by making memorandum adjusting entries to the cash basis financial records.

D. Assets, Liabilities and Fund Equity

The following accounting policies are followed in preparing the balance sheet:

<u>Cash, Pooled Investments and Cash Equivalents</u> – The cash balances of most District funds are pooled and invested. Investments are stated at fair value.

For purposes of the statement of cash flows, all short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash and, at the day of purchase, have a maturity date no longer than three months.

<u>Property Tax Receivable</u> – Property tax in governmental funds is accounted for using the modified accrual basis of accounting.

Property tax receivable is recognized in these funds on the levy or lien date, which is the date the tax asking is certified by the Board of Education. Delinquent property tax receivable represents unpaid taxes for the current and prior years. The succeeding year property tax receivable represents taxes certified by the Board of Education to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the District is required to certify its budget in April of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is deferred in both the government-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied.

Property tax revenue recognized in these funds become due and collectible in September and March of the fiscal year with a 1½% per month penalty for delinquent payments; is based on January 1, 2004 assessed property valuations; is for the tax accrual period July 1, 2005 through June 30, 2006 and reflects the tax asking contained in the budget certified to the County Board of Supervisors in April 2005.

<u>Due from Other Governments</u> – Due from other governments represents amounts due from the State of Iowa, various shared revenues, grants and reimbursements from other governments.

<u>Inventories</u> – Inventories are valued at cost using the first-in, first-out method for purchased items and government commodities. Inventories of proprietary funds are recorded as expenses when consumed rather than when purchased or received.

<u>Capital Assets</u> – Capital assets, which include property, furniture and equipment, are reported in the applicable governmental or business type activities columns in the government-wide Statement of Net Assets. Capital assets are recorded at historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repair that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets are defined by the District as assets with an initial, individual cost in excess of the following thresholds and estimated useful lives in excess of two years.

Asset Class	A	mount
	•	2,000
Land		10,000
Buildings		
Improvements other than buildings	ı	10,000
Furniture and equipment:		
School Nutrition Fund equipment		500
Other furniture and equipment		2,000
Capital assets are depreciated using the straight-line method over the following estimated useful lives:

	Useful	Lives
Asset Class		Years)
TROOT ORGAN		
Buildings	50) years
Improvements other than buildings	20 - 50) years
•	5 – 15	years
Furniture and equipment		•

<u>Salaries and Benefits Payable</u> – Payroll and related expenditures for teachers with annual contracts corresponding to the current school year, which are payable in July and August, have been accrued as liabilities.

<u>Deferred Revenue</u> — Although certain revenues are measurable, they are not available. Available means collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Deferred revenue in the governmental fund financial statements represents the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Deferred revenue consists of unspent grant proceeds as well as property tax receivable and other receivables not collected within sixty days after year-end.

Deferred revenue in the Statement of Net Assets consists of succeeding year property tax receivable that will not be recognized as revenue until the year for which it is levied.

<u>Long-term Liabilities</u> – In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column in the Statement of Net Assets.

<u>Fund Equity</u> – In the governmental fund financial statements, reservations of fund balance are reported for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose.

<u>Restricted Net Assets</u> – In the government-wide Statement of Net Assets, net assets are reported as restricted when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors or laws and regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

E. Budgets and Budgetary Accounting

The budgetary comparison and related disclosures are reported as Required Supplementary Information. During the year ended June 30, 2006, expenditures in the instruction functional area exceeded the amount budgeted.

(2) Cash and Pooled Investments

The District's deposits in banks at June 30, 2006 were entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to insure there will be no loss of public funds.

The District is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Education; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

(3) Inter-fund Transfers

The detail of inter-fund transfers for the year ended June 30, 2006 is as follows:

Transfer to	Transfer from	 Amount
Debt Service	Capital Projects	\$ 257,936

Transfers generally move revenues from the fund statutorily required to collect the resources to the fund statutorily required to expend the resources.

(4) Capital Assets

Capital assets activity for the year ended June 30, 2006 was as follows:

		Balance Beginning Of Year		Increases		Decreases		Balance End Of Year

LOST Revenue Bond Payable

Details of the District's June 30, 2006 LOST revenue bonded indebtedness are as follows:

	Issued July 1, 2005
Year Ending June 30,	Principal
2007	\$ 29,246
2008	29,246
2009	29,246
2010	29,246
2011	29,251
	\$ 146,235

The District is only liable for the principal on this loan; interest is being paid by an NSSI grant, deposited into the Great Western Bank.

During the year ended June 30, 2006, the District made principal, interest and fees payments totaling \$370,872 under the agreement.

(6) Pension and Retirement Benefits

The District contributes to the Iowa Public Employees Retirement System (IPERS), which is a cost-sharing multiple-employer defined benefit pension plan administered by the State of Iowa. IPERS provides retirement and death benefits, which are established by state statute to plan members and beneficiaries. IPERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to IPERS, P. O. Box 9117, Des Moines, Iowa, 50306-9117.

Plan members are required to contribute 3.70% of their annual covered salary and the District is required to contribute 5.75% of annual covered payroll for the years ended June 30, 2006, 2005 and 2004. Contribution requirements are established by state statute. The District's contributions to IPERS for the years ended June 30, 2006, 2005 and 2004 were \$225,672, \$220,258, and \$210,888, respectively, equal to the required contributions for each year.

(7) Risk Management

Jesup Community School District is exposed to various risks of loss related to torts; theft; damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by the purchase of commercial insurance. The District assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

(8) Area Education Agency

The District is required by the Code of Iowa to budget for its share of special education support, media and educational services provided through the area education agency. The District's actual amount for this purpose totaled \$249,422 for the year ended June 30, 2006 and is recorded in the General Fund by making a memorandum adjusting entry to the cash basis financial statements.

(9) Commitments

The District approved the purchase of a dump truck, in the amount of \$10,500, and an irrigation system for the football field for \$17,972, both of which will be purchased after June 30, 2006.

The District entered into contracts for rural school reconstruction, which is in "construction-in-progress" for \$40,500 at June 30, 2006.

Notes to Required Supplementary Information - Budgetary Reporting

Year Ended June 30, 2006

This budgetary comparison is presented as Required Supplementary Information in accordance with <u>Governmental Accounting Standards Board</u> Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund and each major Special Revenue Fund.

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds except Trust and Agency Funds. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on a GAAP basis.

Formal and legal budgetary control for the certified budget is based upon four major classes of expenditures known as functions, not by fund. These four functions are instruction, support services, non-instructional programs and other expenditures. Although the budget document presents function expenditures or expenses by fund, the legal level of control is at the aggregated functional level, not by fund. The Code of Iowa also provides District expenditures in the General Fund may not exceed the amount authorized by the school finance formula. During the year, the District adopted one budget amended increasing budgeted expenditures by \$83,000.

During the year ended June 30, 2006, expenditures in the instruction function exceeded the amount budgeted.

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters

Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

Keith Oltrogge CPA, P.C.

201 East Main Street P.O. Box 310 Denver, Iowa 50622

(319) 984-5292 FAX (319) 984-6408

Independent Auditor's Report on Internal Control over Financial Reporting
and on Compliance and Other Matters

Based on an Audit of Financial Statements Performed in
Accordance with Government Auditing Standards

To the Board of Education of Jesup Community School District:

I have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Jesup Community School District as of and for the year ended June 30, 2006, which collectively comprise the District's basic financial statements listed in the table of contents, and have issued my report thereon dated August 11, 2006. I conducted my audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing my audit, I considered Jesup Community School District's internal control over financial reporting in order to determine my auditing procedures for the purpose of expressing my opinion on the financial statements and not to provide an opinion on the internal control over financial reporting. However, I noted certain matters involving the internal control over financial reporting and its operation that I consider to be reportable conditions. Reportable conditions involve matters coming to my attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that, in my judgment, could adversely affect District's ability to record, process, summarize and report financial data consistent with the assertions of management in the financial statements. Reportable conditions are described in Part I of the accompanying Schedule of Findings.

A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. My consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Jesup Community School District's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit and, accordingly, I do not express such an opinion. The results of my tests disclosed no instances of non-compliance that are required to be reported under Government Auditing Standards.

Comments involving statutory and other legal matters about the District's operations for the year ended June 30, 2006 are based exclusively on knowledge obtained from procedures performed during my audit of the financial statements of the District. Since my audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

This report, a public record by law, is intended solely for the information and use of the officials, employees and citizens of Jesup Community School District and other parties to whom Jesup Community School District may report, including federal awarding agencies and pass-through entities. This report is not intended to be and should not be used by anyone other than these specified parties.

I would like to acknowledge the many courtesies and assistance extended to me by personnel of Jesup Community School District during the course of my audit. Should you have any questions concerning any of the above matters, I shall be pleased to discuss them with you at your convenience.

Keith Oltrogge

No matters were reported.

Schedule of Findings

Year Ended June 30, 2006

Part II - Other Findings Related to Statutory Reporting:

II-A-06 <u>Certified Budget</u> – Disbursements for the year ended June 30, 2006 exceeded the certified budget amount in the instruction functional area.

<u>Recommendation</u> – The certified budget should have been amended in accordance with Chapter 24.9 of the Code of Iowa before expenditures were allowed to exceed the budget.

Response - Future budgets will be amended in sufficient amounts to ensure the certified budget is not exceeded.

<u>Conclusion</u> – Response accepted.

- II-B-06 <u>Questionable Expenditures</u> No expenditures that may not meet the requirements of public purpose as defined in an Attorney General's opinion dated April 25, 1979 were noted.
- II-C-06 <u>Travel Expense</u> No expenditures of District money for travel expenses of spouses of District officials or employees were noted. No travel advances to District officials or employees were noted.
- II-D-06 <u>Business Transactions</u> No business transactions between the District and District officials or employees were noted.
- II-E-06 <u>Bond Coverage</u> Surety bond coverage of District officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to insure the coverage is adequate for current operations.
- II-F-06 Board Minutes No transactions requiring Board approval, which had not been approved by the Board, were noted.
- II-G-06 <u>Certified Enrollment</u> No variances in the basic enrollment data certified to the Department of Education were noted.
- II-H-06 Deposits and Investments No instances of non-compliance with the deposit and investment provisions of Chapter 12B and Chapter 12C of the Code of Iowa and the District's investment policy were noted.
- II-I-06 <u>Certified Annual Report</u> The Certified Annual Report was certified to the Iowa Department of Education timely.
- II-J-06 Financial Condition Activity Fund The Student Activity Account had one deficit account at June 30, 2006.

<u>Recommendation</u> – The District should continue to monitor this situation and investigate alternatives to eliminate this deficit in order to return the account to a sound financial condition.

Response - We are working on this.

<u>Conclusion</u> – Response accepted.
